SPRING FLOWERING SHRUBS THAT WILL BOOST MARCH SALES

AMYGDALUS ALBA NANA (DWARF FLOWERING ALMOND)

Most spectacular in early spring with its quantities of delightful, white "button-like" flowers attached snugly to the branches. This shrub attains a height of approximately 3 ft. and prefers growing in full sun. Deciduous. We have never had enough of these to go around, so please anticipate your needs and order NOW.

1-gallon size .40 • 5-gallon size 1.65

AMYGDALUS ROSEA NANA (DWARF PINK FLOWERING ALMOND)

Equally as lovely as the Amygdalus alba nana in all ways; the flowers are a beautiful soft pink.

1-gallon size .40

PRUNUS JACQUEMONTI (DWARF FLOWERING CHERRY)

A double duty shrub—colorful, single pink blooms practically cover the entire shrub during early spring, and in July it produces very edible sweet tasty red cherries. Grows to a height of about 4 ft. Deciduous.

1-gallon size .50

SYRINGA PERSICA LACINIATA (CUTLEAF PERSIAN LILAC)

A beautiful sight in the spring with its long sprays of fragrant bright lavender flowers. A very hardy deciduous shrub that attains a height of 4 to 6 ft. The foliage is attractive with deeply cut leaves. Excellent for color and for foliage contrast. Remember, these lilacs do well in the warm areas of the country—and produce an abundance of flowers.

1-gallon size .40 • 5-gallon size 1.65

VIBURNUM OPULUS STERILE (EASTERN SNOWBALL)

Truly a beautiful shrub. In the spring it is covered with an abundance of lovely fluffy white "snow-balls" that enhances any yard in which it is growing. A must for every yard! Deciduous.

1-gallon size .45 • 5-gallon size 1.65
